Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: discussed proposed amendments to specification and claims. Examiner stated that the proposed amendments would not obviate the rejections. The recommendations put forth in the original Office Action remain, i.e., more information concerning which of the 10 compositions were actually administered to the patients and the total amount/number of administrations, route of administration, and the patient populations given the compositions. The examiner stated that compositions other than that already recited in the specification would constitute new matter. Applicants will submit a Response based upon these discussions and the examiner will assess the rejections in light of the submitted response..
